

journal of personalized medicine an open access journal - journal of personalized medicine issn 2075 4426 coden jpmob3 is an international peer reviewed open access journal on personalized medicine published quarterly online by mdpi open access free for readers with article processing charges apc paid by authors or their institutions high visibility covered by the emerging sources citation index esci web of science, **dna molecular markers in plant breeding current status** - abstractwith the development of molecular marker technology in the 1980s the fate of plant breeding has changed different types of molecular markers have been developed and advancement in sequencing technologies has geared crop improvement to explore the knowledge about molecular markers several reviews have been published in the last three decades however all these reviews were meant, **genome wide genotyping demonstrates a polygenic risk score** - white matter hyperintensities wmh on mri are a quantitative marker for sporadic cerebral small vessel disease and are highly heritable to date large scale genetic studies have identified only a single locus influencing wmh burden this might in, **ultrafast search of all deposited bacterial and viral** - exponentially increasing amounts of unprocessed bacterial and viral genomic sequence data are stored in the global archives the ability to query these data for sequence search terms would, **comprehensive analysis of mrna methylation reveals** - highlights m 6 a is a widespread rna modification in many tissues with high levels in the brain merip seq identifies m 6 a in 7 913 genes encoding both coding and noncoding rnas m 6 a is enriched near stop codons and within 3 utrs in both mouse and human mrnas the transcriptome wide landscape of m 6 a provides important insights into m 6 a function, **resolve a doi name** - type or paste a doi name into the text box click go your browser will take you to a web page url associated with that doi name send questions or comments to doi, **genetics of colorectal cancer pdq health professional** - this executive summary reviews the topics covered in the pdq summary on the genetics of colorectal cancer crc with hyperlinks to detailed sections below that describe the evidence on each topic at least three validated computer models are available to estimate the probability that an individual, **challenges of glycosylation analysis and control an** - in contrast to nucleic acids and proteins the biosynthesis of glycans is not directly template driven but rather is a result of a complex network of metabolic and enzymatic reactions that are influenced by many factors including the genetic profile of the cells in which the glycoconjugates are expressed epigenetics and the extracellular environment, **genomics based diversity analysis of vanilla species using** - one goal of this study was to assemble a living collection of diverse vanilla species needed to develop genomics based tools for diversity analysis the collection sourced accessions from, **free access to scientific journals open access journals** - open access journals are the major source of knowledge for young and aspiring generations who are keen in pursuing a career in sciences this system provides easy access to networks of scientific journals authors that contribute their scholarly works to open access journals gain remarkable reputation as the research scholarly explore these works extensively, **faostat food and agriculture organization** - faostat provides free access to food and agriculture data for over 245 countries and territories and covers all fao regional groupings from 1961 to the most recent year available, **assisted migration assisted colonization managed** - assisted colonization is the intentional movement and release of an organism outside its indigenous range to avoid extinction of populations of the focal species ecological replacement is the intentional movement and release of an organism outside its indigenous range to perform a specific ecological function see the 3 fold chart immediately below for distinctions between three forms of
